

Process for the declaration of a prohibited area for cats by a council under the *Cat Management Act 2009*

Introduction

A council may declare an area of land that is under its authority to be an area where cats are prohibited (a 'prohibited area') (section 19).

The declaration of a prohibited area is useful for proactive protection of key environmental assets, e.g. local government reserves, and other local government assets such as waste disposal facilities.

Declaration of a prohibited area allows an authorised officer, or a person responsible for the prohibited area, to undertake cat management action, including trapping; seizing; detaining; and where appropriate, humanely destroying a cat found in that area (section 18).

Purpose

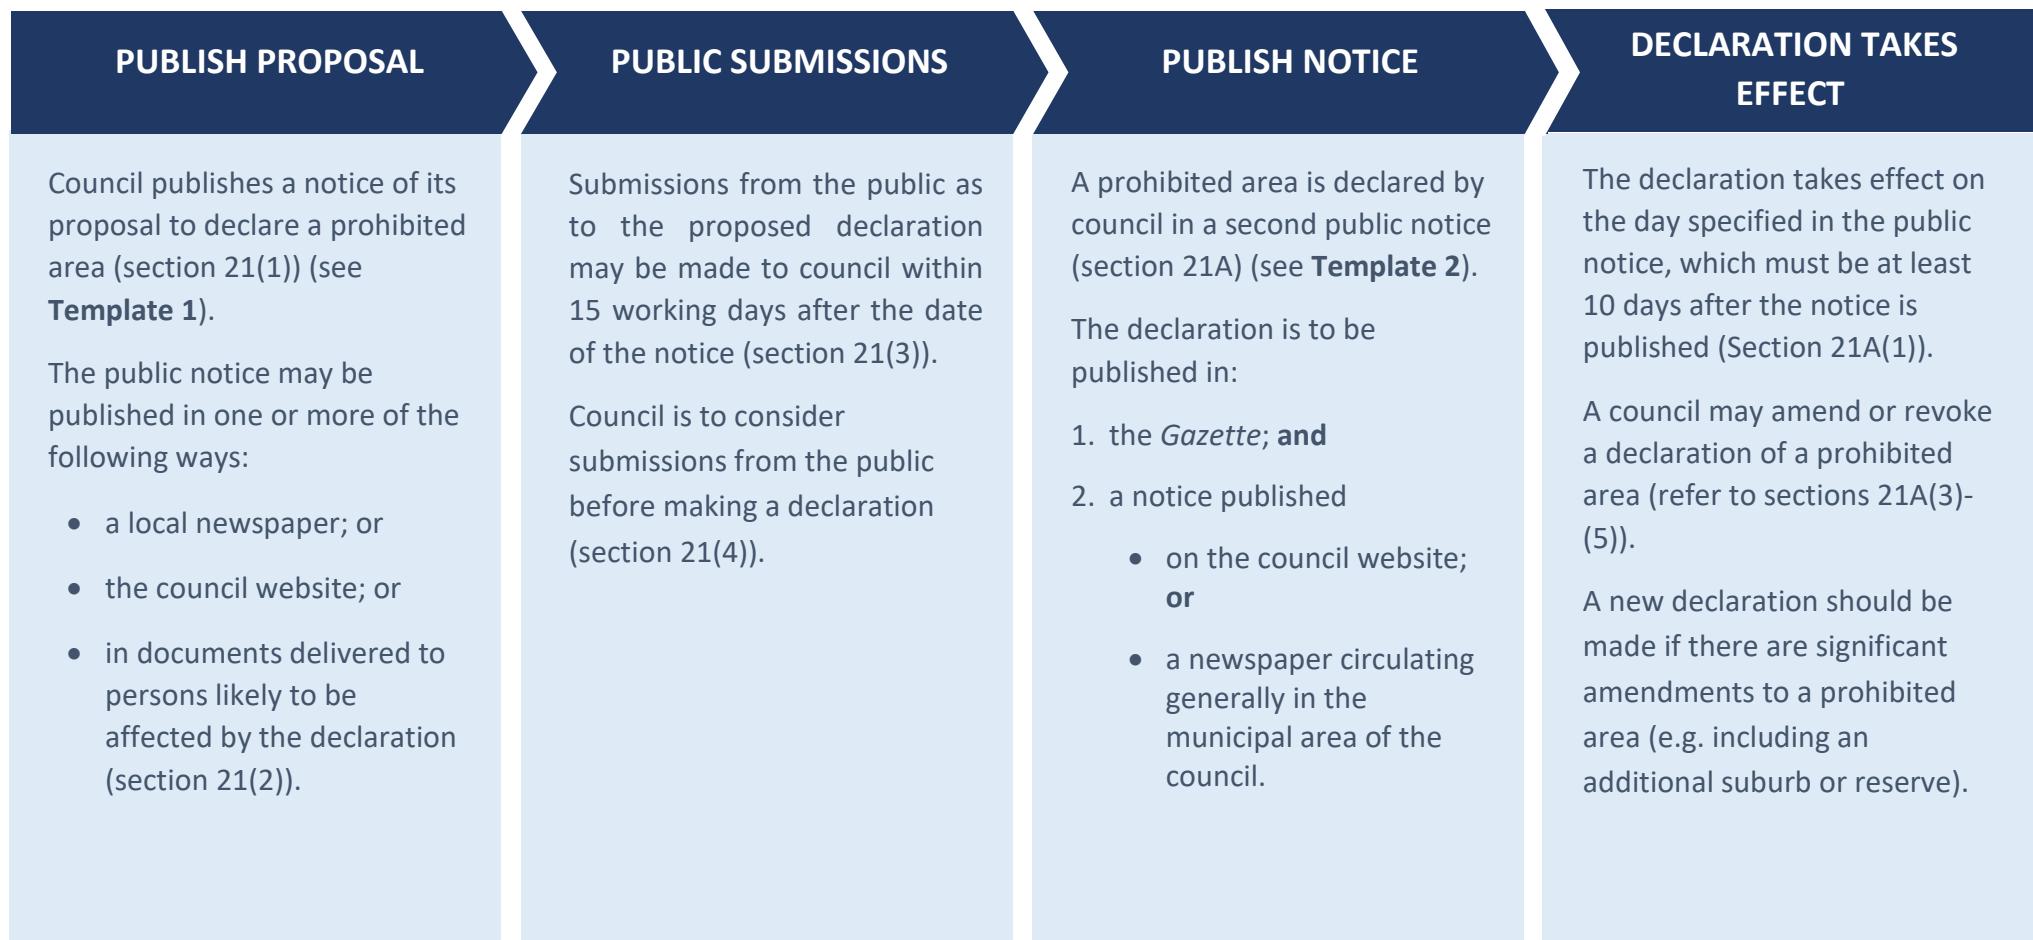

This document is to help guide a council through the process of declaring a prohibited area under the *Cat Management Act 2009*.

The full declaration process is set out on page 2. It is important that all the steps in the process are followed as described.

Templates for the publication of notices are provided on page 3.
